

5G IS COMING

DO WE REALLY WANT IT?

Copy and paste the following headings into your browser for the information we are not being told by our Governments

- **Scientist Appeal for 5G Moratorium**

What can we do? Well, we may wish to -

- Contact our public servants (local Councillor, MSP, MP) – post or physically deliver this information sheet and let them know we are concerned, asking them to examine the information, respond directly to us as soon as possible to let us know whether or not in light of this expert information they agree that the 'deployment' of 5G should be urgently re-considered, and whether or not they will question Government/Local Authority position on the rollout (i.e. no accountability)
- Keep everyone we know informed of the outcome
- Re-consider use of Wi-Fi (and if parents of young children, we may wish to ask if it is used in their schools)
- Copy and distribute this information sheet
